## WE CLAIM:

- 1. A method for decreasing intraocular pressure comprising administering a therapeutically effective amount of 8-isoPGE<sub>2</sub> to a patient in need of such treatment.
  - 2. The method of claim 1 wherein the 8-isoPGE<sub>2</sub> is administered topically.
- 3. The method of claim 2 wherein the 8-isoPGE $_2$  is administered as a composition comprising between .005 to 1 percent 8-isoPGE $_2$ .
- 4. A method for decreasing intraocular pressure comprising administering a therapeutically effective amount of a derivative of 8-isoPGE<sub>2</sub> to a patient in need of such treatment.
  - 5. The method of claim 4 wherein the derivative is an ester of 8-isoPGE<sub>2</sub>.
- 6. The method of claim 4 wherein the derivative of 8-isoPGE<sub>2</sub> is administered topically.
- 7. A method for decreasing intraocular pressure comprising administering a therapeutically effective amount of8-isoPGE<sub>1</sub> or a derivative thereof to a patient in need of such treatment.
  - 8. The method of claim 7wherein the 8-isoPGE $_1$  is administered topically.
- 9. The method of claim 8wherein the 8-isoPGE<sub>\$\beta\$</sub> is administered as a composition comprising between .005 to 1 percent 8-isoPGE<sub>\$\beta\$</sub>.
